

## **Guidance for Fundraising**

- Obtain quotes for the amount you need to fund raise, such as quotes for travel or quotes for materials needed to build a prototype. Be clear about what the costs are and what they will be used for.
- Reach out to local businesses who may be able to support, such as Waste companies, DIY companies, Supermarkets, Energy companies etc.
- There is a supporting letter which you can adapt for your school or group. You could adapt the letter to add specific details about your project, the costs you will incur in attending Pitch for the Planet and what would attending Pitch for the Planet will mean to your school or group?
- You could also think of ways to fundraise within your school or organisation, such as holding a cake sale
- If you have been successful with receiving donations of support, please let us know and at the end of the conference remember to:
  - Send thank-you letters or emails
  - Share photos or a short report
  - Mention what students learned or achieved
  - Publicly acknowledge supporters (with permission)
