sponsorship opportunities

Empowering the next generation of Climate Innovators

What is Project Earth?

Project Earth is a UK charity dedicated to transforming climate anxiety into climate action by empowering young people aged 8–18 to develop solutions to the climate and biodiversity crisis.

Through our global youth climate accelerator and flagship events, Pitch for the Planets, we provide young people with the knowledge, confidence, mentoring and platform to become innovators, changemakers and future leaders.

In our first year, we have received submissions from young people across the world, demonstrating extraordinary creativity, ingenuity and determination to tackle the environmental challenges of our time.

By sponsoring Project Earth, your organisation can:

- Support climate and environmental innovation
- Invest in the next generation of STEM talent
- Demonstrate meaningful environmental and social impact
- Engage employees in inspiring educational initiatives
- Align with the UN Sustainable Development Goals
- Gain visibility amongst schools, educators, families and sustainability leaders

What Your Support Achieves

Your sponsorship helps:

- Build climate literacy
- Develop innovation skills
- Reduce climate anxiety through action
- Support STEM participation
- Create practical environmental solutions
- Inspire future green careers

Together, we can ensure that young people are not simply inheriting the future - they are helping shape it.
